

Environmental Policy

WA Treasure Hunt is committed to reducing the impact of our operations on the environment, by planning and investigating game locations, to comply with all legislative and conforming requirements.

We aim to achieve this by,

- a) Complying with area environmental requirements, where game locations are held.
- b) Promoting public and employee awareness of environmental impacts in areas of activity, with focus on education, local governance, national standards and long-term environmental planning.
- c) Planning activities to reduce environmental effects, and utilising best available methods to deliver transparent standards.
- d) Utilising all available sources to check contemporary environmental legislation changes, and amend all policies to reflect any amendments made by local or government agencies.

Director,

WA Treasure Hunt,
